**DETAILED ACTION**

1. In view of the Appeal Brief filed on 2 November 2004, PROSECUTION IS HEREBY REOPENED. An allowance of pending claims 1-15 is set forth below.

***Response to Amendment***

2. The amendment to the specification file 12 July 2004 appropriately addresses the objection to the Abstract. Accordingly, this objection is withdrawn in view of Applicant's amendment.

***Allowable Subject Matter***

3. Claims 1-15 are allowed.

4. The following is an examiner's statement of reasons for allowance: Applicant's arguments in the Appeal Brief file 2 November have been fully considered and are persuasive. Particularly, it is noted that the "high-level language definition" cited by the Examiner from *TASM3* is not, itself, written in the high-level language. *TASM3* discloses using separate files for high-level language code (for example, a C++ source file) and assembly language code, where specialized directives (for example, EXTRN) are used to simplify subsequent linking after separate compilation of the high-level language code and assembly of the assembly language code (see, for example Figure 18.1 on p. 243).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
